

# ***X~PWR™***

## ***GoPro Hero 3 and Hero 4 All-Weather External Power Case***

Never again miss that exciting video shot due to dead batteries!

X~PWR™ All-weather external power case allows your Hero 3 or Hero 4 camera to be plugged into an external USB power source for continuous power. X~PWR™ patented tower and B-CAPP™ cable provides protection against the harsh environments of winter sports, powersports activities and more.

Now you can run the Hero 3 or Hero 4 battery-killing apps like the GoPro Bluetooth smartphone interface and still catch all of the action. Record up to nine hours of video on a 64GB micro SD card.

Plug into one of 3BR Powersports' TAPP family of all-weather USB ports using a TAPP CAPP™ cable for a complete all-weather system powered from your motorcycle, ATV, UTV, Snowmobile or other powersports vehicle.

Optional accessories allow for powering your GoPro Hero 3 or Hero 4 from a USB external battery carried in a pocket.

### **TAPP™ All-Weather Power Ports:**

- 160-0056-02 TAPP 2.1 amp All-weather USB power port with TAPP CAPP Kit
